ABOUT THE BOOK

More than cricket.
A story of teams.

When a group of 40-somethings in a Bangalore gated community decide to form a cricket team, no one expects much. What unfolds is a raw, honest, and often hilarious journey of strangers becoming teammates — and teammates becoming something closer to family.

Through close matches, missed catches, early morning sunrises, and shared breakfasts, *Second Innings* reveals what truly builds a team — and why it looks exactly like what happens in every office, every project, and every organisation you've ever been part of.

Written not from theory, but from lived experience.
